

# Woman in Global Science Special Career talk

## Science and suitcases a personal view of a 4-continent scientific career

**2018.11.6(Tue)15:00-17:00**

Faculty of Engineering Material Science Building(MC208)/工学部材料科学棟

### Lecturer: Jennifer Mortimer

Director Plant Systems Biology / Deputy Vice President of Feedstocks Division,  
Joint BioEnergy Institute(JBEI), U.S Department of Energy

イギリス・ケンブリッジ大学で博士取得後ポスドクを経験し(学士はオーストラリア)、日本の理化学研究所に移った後、アメリカ・エネルギー省管轄の総合バイオエネルギー研究所(JBEI)にて植物システム生物学のグループリーダー、さらにはJBEIの原材料部門で副所長として、植物生理学・植物バイオマス利用について先端研究をリードしている。

### 15:00-15:50 Careers talk:

Science and suitcases: a personal view of a 4-continent scientific career

During my career, I have worked in universities in the UK and Australia, National Labs in Japan and the USA, as well as at a small biotech company in the UK. I have worked in small labs, and larger ones. I have been awarded small grants, and been part of large, multi-disciplinary, multi-PI grants. I have interviewed for faculty positions at both UK and US institutions. I will briefly describe my career to date, and give my ideas on what has helped me so far, and what didn't. Spoiler alert - first author publications aren't everything!

### 16:00-17:00 Research talk:

Plant sphingolipid glycosylation, and its role in plant-microbe interactions and cell wall biosynthesis.

本講演は、大学院総合化学院『化学研究先端講義(修士課程選択科目/総合化学特別研究第二(博士後期課程選択科目))』の一部として認定されています。

This seminar is approved of the "Topical Lectures in Chemical Sciences and Engineering"(for MC students) and the "Research in Chemical Sciences and Engineering II"(for DC students) under the Graduate School of Chemical Sciences and Engineering.

**Everyone is welcome!**
